

## **SECTION VII**

# **Reservoir Mechanics**

VII.A Stratigraphy and Lithology

VII.A.1 Jackson Formation

VII.A.2 Cockfield Formation

VII.A.3 Upper Cockfield Member

VII.A.4 Middle Cockfield Member

VII.A.5 Lower Cockfield Member

VII.A.6 Cockfield Shale Member

## **VII.B Injection Reservoir Parameters**

VII.B.1 Injection Reservoir

VII.B.3 Structure

VII.B.4 Permeability and Skin

VII.B.5 Porosity

VII.B.6 Saturation and Relative Permeability

VII.B.7 Temperature

VII.B.8 Compressibility

VII.B.9 Injection Reservoir Fluid

## **VII.C Reservoir Model Parameters**

VII.C.1 Model Construction

VII.C.2 Model Input Parameters

## **VII.D Reservoir Pressure Analysis**

VII.D.1 Initial Static Reservoir Pressure

VII.D.2 Estimation of Fracture Pressure

VII.D.3 Maximum Allowable Surface Injection Pressure

## **VII.E Reservoir Modeling**

VII.E.1 Reservoir Model

## **VII.E.2 Prediction of Reservoir Pressure Increase**

VII.E.2.a Modeled Injection Rate

VII.E.2.b Model Results

VII.E.3 Extent of the Wastewater Plume

## **VII.F Calculation of the Cone of Influence**

VII.F.1 Methodology

VII.F.2 Cone of Influence Calculations
